NEW CONSTRUCTION FINISH CLEANING AND DETAIL EXPERTS

SCOPE OF WORK

ROUGH CLEANING: Post-construction clean-up before finish cleaning.

FINISH CLEANING: A detailed cleaning that prepares for the initial inspection by the owner.

- Clean all thresholds of debris, cement, stucco, etc.
- Clean the inside of all windowsills and tracks.
- Clean the inside of all cabinet drawers, doors and shelves, including tracks and hardware.
- Clean sanding dust off cabinets, woodwork, walls, and ceiling beams.
- Remove paint, over-spray, glue and stains on floors.
- Clean fireplaces, including doors, interiors and hardware.
- Remove all stickers and labels on all fixtures.
- Remove packing for appliances. Place all warranty and instruction documents at location designated by the Project Manager.
- Remove protective film from appliances. Dust/wash and shine all appliances.
- All windows, sliding glass and French doors to be cleaned inside and outside. All paper labels to be removed.
- Clean and install window screens as requested.
- Remove caulking and paint from windows as required, final squeegee after landscaping or as directed by the Project Manager.
- Clean and polish mirrors.
- Clean and polish light fixtures (including exterior fixtures).
- Clean all counters, showers, tubs, tile, granite and marble.
- Remove paper from the floors. Clean all floors, including wood, tile and stone floors.
